Try These Practical DWARF FRUIT TREES

- Hardy
- Convenient
- Beautiful
- Economical
- Easy to Pick

Dwarf fruit trees are enabling millions of people with only small areas for fruit trees, and city families to have a variety of fruit never before possible. Even in small yards there is room for a dozen or more dwarf trees, providing fruit from early summer to late fall. The fruit from dwarf trees is just as large as that grown on standard size trees, and just as delicious. The only difference is that you pick the fruit without a ladder and caring for the trees is a much more simple job. Plant a variety of dwarf trees this year and have a real home fruit garden.

NORTH STAR CHERRY

A new dwarf cherry. Extremely hardy, and bears very young. Wonderful for pies.

1 to 2 ft., \$1.80; 2 to 3 ft., \$2.40

DWARF PEARS

BARTLETT—White juicy meat. Ripens in early fall.

DOUGLAS—Large late pear.

KIEFFER—Late yellow. Good keeper.

GARBER—Large summer pear. Fine quality.

2 to 3 ft., \$2.25; 3 to 4 ft., \$3.00

DWARF FRUIT TREE SPECIAL

1 Dwarf Apple, 2 to 3 ft.

1 Dwarf Pear, 2 to 3 ft.

1 Dwarf Cherry, 2 to 3 ft.

All For **\$6⁰⁰**

DWARF APPLE TREES

Dwarf trees are most desirable for yard, or small gardens since they may be set 10 to 12 feet apart.

LODI—Much like the yellow transparent.

SUMMER CHAMPION—Large red, late summer apple.

RED DELICIOUS—The choice red apple.

JONATHAN—Ripens August and September.

STAYMAN WINESAP—A good winter keeper.

YELLOW DELICIOUS—Best yellow apple on the market.

2 to 3 ft., \$2.65; 3 to 4 ft., \$2.95; 4 to 5 ft., \$3.50

NEW

DWARF—DELCON

One Size Only—2 Yr.—3 to 4 ft.—\$2.15

A small tree with large apples. Ideal for small lots, yards and home orchards. Normally doesn't grow over 12 ft. tall, yet bears loads of beautiful, delicious, dark red, full-sized apples shaped like Delicious. Flavor has all the best qualities of its parents—(Jonathan and Delicious). Very hardy. Plant 8 ft. apart.

HURRY! HURRY! ORDER at these LOW PRICES!

FOR BIGGER PROFITS ORDER OUR NEWER AND IMPROVED VARIETIES

THE CRAB APPLES FOR FRUIT AND BEAUTY

There is nothing like beautiful crabs for a real display of bloom in early spring. The fruit makes wonderful butter and jelly, too.

FLORENCE—The finest of the Crab Apples. Tree of rather small size, bears very young and producing heavily; fruit in clusters; about an inch in diameter; golden yellow with a bright cheek, or almost entirely red. The flesh is firm, fine grained and exceedingly juicy with that distinct snap-ness so relished in a crab apple.

DOLGO—A handsome red Crab Apple. Flesh is deep red to the core. The fruit is full of juice, jells easily and makes a rich ruby red jelly of beautiful color and excellent flavor.

Winter Varieties

Winter apples are harvested in late Fall and may be kept in storage for Winter and next Spring use.

MAMMOTH BLACK TWIG — Extra large size, round, skin smooth, yellowish, covered with deep red, the general effect being dark red; flesh tender, tinged with yellow, crisp sub-acid, aromatic; of excellent quality in every way. Tree vigorous, healthy and bears when quite young; very prolific.

ARKANSAS BLACK — Vigorous, upright grower. Fruit medium to large; fine flavor; beautiful dark color, almost black; flesh yellowish, slightly sub-acid, crisp. One of the best for cooking. January to March.

PREPAID. We prepay all stock to any part of the U. S. (except Balled and Burlapped Evergreens, and large shade trees). There are no additional charges to add to our prices for transportation. You know exactly what it costs you when you order. (Foreign countries should add 10% of the amount of orders for transportation charges.)

Summer Varieties

EARLY RED BIRD — Earliest apple on our list, fiery, flaming red, from week to two weeks before the Yellow Transparent. The earliest apples always bring the top prices, very fine flavor, good size and one of the very best for quality; a winner for a market apple. Bear young, annually, and immense crops.

OLD FASHIONED HORSE — Large, pale yellow, shaded with red; tender, juicy, sub-acid. Tree vigorous and very hardy; upright grower; bears early and abundantly. An old apple, famous for cider, pies, drying and all culinary purposes. When allowed to mellow to deepest gold, it is a delicious eating apple. We have the genuine. Ripens August 1st.

YELLOW TRANSPARENT — Hardy, upright grower; regular and early bearer, medium size. Rich, transparent yellow with a faint blush on sunny side; flesh melting, juicy, sub-acid.

SUMMER CHAMPION—Beautiful red late summer apple of extra good quality. Good color and large size. Good grower, heavy bearer and very hardy.

Autumn Varieties

GRIMES GOLDEN—One of the most popular apple trees, strong, thrifty grower. Fruit medium or above, cylindrical; regular surface; yellow veined; russeted; flesh yellow, firm, very fine grained, juicy, flavor sub-acid, quality rich. For dessert, cooking and market. September to April.

RED DELICIOUS — Deep rich red; juicy and good. Plant for extra profits. Sturdy. November-March.

YELLOW DELICIOUS — A taste that's mild and sweet. A shape that's plump and neat. Golden Yellow; productive. Good cooker; bears young. November-December.

RED DELICIOUS

Ben-Co's HONEY SWEET YELLOW DELICIOUS

This beautiful Honey Colored apple competes in both size and flavor with any yellow apple grown. BenCo's Honey Sweet Delicious produces in three years after planting. It is the quickest profit growing apple on the market. Its Honey Sweet taste makes it the finest eating apple produced anywhere. Bears early and can be held in storage until the proper selling season for higher profits.

Ben-Co's OZARK BLOOD RED DELICIOUS

Finest of any Red apple on the market. Its shiny red skin makes this apple the most beautiful of any seen on dining room tables or store counters. Its top quality flavor and juicy taste makes it the most wanted apple of its kind in any orchard. BenCo's Ozark Red bears in three years and always produces a heavy yield.

Ben-Co's Ozark Mountain Grown Trees are worth more — they are healthier, heartier and faster growing than any others. Large Profits can be yours by buying at these SPECIAL PRICES.

Red and Yellow Apple Assortment

NOTE: Write for special prices on large orders.

BLOOD RED STAYMAN WINESAP—A large Stayman Winesap that is blood red, excellent quality, keeps well. The tree is a fair grower and good bearer.

LODI (Big Transparent)—Lodi is proving to be one of our best early apples because of its large size, firmness and early bearing habits. The tree and fruit resemble the Yellow Transparent but the fruits are much larger and make the Yellow Transparent apple look like culls. The tree bears annually and ripens with the Yellow Transparent.

BLOOD RED ROME BEAUTY

BLOOD RED ROME BEAUTY—Bright, beautiful red of large size. Excellent for baking. Flesh is tender, juicy and good quality. Bears young, regularly and very hardy.

DELUXE

DELUXE—Very early and large size fruit, good cooking and eating apple with a light green color. Bears heavily.

The Old Folks' Favorite **ANOKA**

Bears second year. A wonderful early apple. Fruit is large and yellow, streaked with strawberry red. Good flavor.

1 to 3 ft., \$1.16
3 to 5 ft., \$1.54

Junior Red and Yellow Apple Assortment

4 apple trees of as good varieties as are grown. Yellow Transparent, Red Jonathan, Red Delicious, Yellow Delicious.

4 Apple Trees— \$2³⁹
3 ft. and up for.....

TURLEY WINESAP—The old winesap did not have enough red color. Turley Winesap is a cross between a Rome Beauty and a regular Winesap. It is dark red when ready to pick. Does not crack. One of the finest apples; keeps until spring.

New **WHETSTONE** Apple

A Ben Davis by Jonathan cross, which in turn was crossed with Delicious. Originated at the Missouri State Fruit Experimental Station at Mountain Grove, Mo. The fruit is large, well colored, uniform in size and shape, keeps extremely well. The fruit is red with darker obscure stripe of medium width. Has greenish yellow background, but colors well all over when ripe.

The tree is vigorous, has large leaves, long apple stems and thick twigs. Produces large regular crops of high percentage of smooth apples. The finest baking apple we have ever known. Latest ripening apple to pick. Best keeper. The most interesting characteristic is its ability to hang on the tree and continue to grow and color after most all other commercial varieties drop.

Don't fail to order at least one of these trees this fall. \$1⁷⁶
We can furnish 3 to 5 ft. size only.....
(Limit 5 trees per customer)

TURLEY WINESAP

BLOOD RED JONATHAN—A beautiful red apple, highly flavored and of excellent quality, being tender, juicy, spicy and rich. Gets red all over. Highly profitable for market. Trees long-lived, productive, and an early bearer. November to April.

BLOOD RED JONATHAN

1 to 2 feet..... **87c ea.**

BARTLETT—Early, large, good quality.
DOUGLAS OR BLIGHT-PROOF—Large, good quality, late, free from blight.
KIEFFER—Large golden yellow, late.

EARLY VARIETIES

BARTLETT—Large size, with beautiful blush next to the sun; buttery; very juicy, and highly flavored; bears early. August and September.

AUTUMN VARIETIES

KIEFFER—Large, golden yellow, often blushed in the sun; juicy and melting. One of the best for preserving and canning; the most profitable to grow. Tree healthy, hardy and vigorous. It is liable to overbear, therefore special pains should be taken to thin the fruit.
DOUGLAS—Blight proof; will bear fruit second year after planting; is very productive. The fruit is larger than Kieffer or Bartlett. The color is golden yellow, often with pink shading. The flesh is white, very tender and juicy and excellent flavor.

SEEDLESS PEAR

Brand new variety. Practically seedless. Solid all the way through. Ideal for canning. No waste. It is of the Bartlett type, pure white flesh with yellow blushed skin. Ripens 10 days later than Bartlett, and trees bear when three years old. A 5-year tree known to bear 3 bushels of fruit.

3 to 4 ft. size, **\$1.96 each**

POLLINATION — Two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

CULTURE

Pears will grow on almost any soil but will do best on a high elevation, provided the sub-soil is not too wet. Wherever this is the case the ground should be thoroughly underdrained. In very poor soil a heavy top dressing of manure in the fall will be of advantage. Standard pear trees should be planted twenty feet apart each way.

Pears are subject to fire blight, a disease controlled only by cutting back the branches beyond the point of injury.

Do not allow pears to ripen on the trees. The highest quality results from gathering fruit ten days before it is ripe. Winter pears are best stored before the heavy frost.

TREE WOUND DRESSING

A very adherent and lasting antiseptic dressing for sealing and waterproofing tree wounds. It is unexcelled for preventing infection of pruned or damaged portions of trees and shrubs. It is also good for grafting purposes.

1 Pint Can **\$1.25**

ROOTONE

Makes heavier grass turf, causes faster germination of seeds. Increase plant growth. Safe, sure.

POLLINATION—It is advisable to plant two or more varieties of plums, as many varieties do not self-pollinate.

AMERICA—Very early, hybrid. A full brother of Gold, the sensational \$3,000 plum. Same parentage—a cross between Burbank and Robinson (Native). From the far-reaching experimental hybridizing of 20,000,000 cross-bred seedlings by the great scientist, Luther Burbank, came two grand plums—Gold and America; it was then plum growing received its greatest impetus. America is large, glossy, coral red, one of the most beautiful and delicious plums ever grown. In our orchard it is the one variety that can always be depended upon for a crop. Tree large, very vigorous, thoroughly hardy, bears extremely young, and bears enormous crops every year. Succeeds everywhere. Eating, cooking, market.

MUNSON'S YELLOW—A hybrid, seedling of Normand crossed with America. Ripens last week in June, the earliest of all plums to ripen. Colors well, yellow; size large; good quality, tender, juicy and sweet Freestone.

HANSKA PLUM—The color of the Hanska when fully ripe is a deep bright red, with firm flesh and of high quality. When fully ripe they are fragrant like the apricot and when cooked the strong apricot flavor is brought out to perfection, entirely unlike any native plum. The fruit has a small pit. The tree is a profuse bloomer, grows tall and is rapid grower. The trees often bear when they are only two and three years old. Freestone.

SHROPSHIRE DAMSON—Large purple freestone of excellent flavor. Thrifty growing tree. A fruit that will carry well, and for its season of ripening it has no equal. Ripens about August 5th.

PRESIDENT—The largest of all the Plums. A beautiful dark purplish black with a heavy bloom. Ripens late, 10th of September. A wonderful rich flavored freestone, solid-flesh plum.

BRUCE—Large, red, productive. Early ripening, firm shipping quality, productiveness and deliciousness of flavor.

SAPA—Bears first year. (Hanson Hybrid). A large size purple Hanson hybrid with purple flesh full of rich juice of fine flavor. Bears heavy crop annually and begins fruiting the first year after planting. Succeeds everywhere; ripens middle of July. Fine for canning.

STANLEY PRUNE—Medium large; purplish-black; blue bloom; free; flesh greenish-yellow, juicy, sweet and of good quality; will hang on tree after ripening; splendid for drying and market. Tree very productive. September.

ALL RED PLUM

A red leaf plum which produces a bountiful crop of delicious red-meated fruit. Red all over, even the branches, leaves, stems, fruit and seeds. A gorgeous tree for yard plantings both for ornamental and fruit purposes.

SOUTH HAVEN

Freestone. Ripens about 10 days before Elberta. Will bear full crop almost every year when Elbertas fail. Large yellow peach. Good quality.

JUNE ELBERTA

Ripens about 30 days before Elberta. Will bear full crop almost every year when Elbertas fail. Large yellow low peach. Good quality.

HALE-HAVEN

A most promising new, large, yellow freestone. Introduced by the Michigan State Experiment Station. A cross between the Hale and South Haven. Ripens two weeks earlier than the Elberta, making an excellent combination with Golden Jubilee and Elberta.

REDHAVEN

A Grand Peach—the most promising, new, early yellow variety for either home use or commercial markets. (Freestone). Hardy, vigorous grower.

- EXTRA EARLY**—Ripens a month before Elberta.
- BRILLIANT COLOR**—Almost as red as a Jonathan Apple. Reddens before it ripens.
- FINE FLAVOR**—Large Fruit. Sweet, juicy, fine textured, delicious.
- GOOD SHIPPER**—Firm flesh and tough skin.

BELLE OF GEORGIA

Very large, skin white, with red cheeks; flesh white, firm and of excellent flavor; the fruit is uniformly large and showy, prolific. Chinese Cling seedling. Freestone.

GOLDEN JUBILEE

We recommend this New Jersey Experiment Station introduction. Comparatively new, but widely planted. Is a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe Winters and heavy frosts. Ripens 20 days before Elberta.

GOLDEN JUBILEE is without equal as an early, large, yellow Freestone of highest quality. Flesh is yellow, tender, juicy, and sweet. Ideal for home use and roadside market sales.

FREE Arkansas Stone Fruit Nursery Stock is VIRUS-

FREE Our stone fruits are grown under the vigilant eyes of the inspector of the Arkansas State Plant Board in a region free from virus diseases, making it by far the safest and best nursery stock for you to buy.

Virus diseases such as "Peach Yellows," "Phony Disease," "Peach Mosaic," and "Little Peach Disease" have ruined thousands of valuable peach orchards and practically wiped out the peach industry in certain peach-growing areas. These diseases are established in orchards by means of a few diseased trees in shipments of nursery stock and when planted these diseases spread from tree to tree by insects. The only control measures so far available are the destruction of the trees and planting of new trees grown in regions free of these diseases.

Don't take any chances by ordering trees that might be infested with these diseases. **ALL OF OUR STONE FRUIT NURSERY STOCK IS COMPLETELY FREE FROM VIRUS DISEASES AND IS THEREFORE THE BEST AVAILABLE FOR PLANTING IN ANY OF THE FRUIT-GROWING AREAS IN THE UNITED STATES. BE SAFE AND ORDER FROM US. DON'T RISK THE LOSS OF YOUR ENTIRE ORCHARD.**

PEACHES

AS LOW AS 20c EA.

Grow BIG LUSCIOUS PEACHES for Cooking, Eating, Canning, Market

POLLINATION — With the exception of Mikado and J. H. Hale, all the varieties we offer are self-fruitful.

Extra Early Variety

Arkansas Black

ANOTHER BRAND NEW PEACH—The Arkansas Black is the earliest peach known in this section. The most beautiful color we have yet seen for a peach. They are a very dark red getting almost black; clingstone and of good quality. They have a good color for several days before they are ripe, and from the time they are ripe the fine appearance they have and good quality make them sell like hot cakes.

Early Varieties

RED BIRD CLING—Very early. As large as Elberta, strikingly handsome and the first big peach that is ready for market. A sensation everywhere; bright glowing red on a background of creamy white; flesh firm, making it an ideal shipper. Early in the season people are fruit hungry and these big handsome peaches bring prices that are almost unbelievable. W. A. Jeffers, a well known Arkansas orchardist, got as high as \$10.00 per bushel for Red Bird.

Medium Varieties

J. H. HALE—Genuine Hale Budded from Bearing J. H. Hale Tree. This new variety has been brought out with more advertising than any other sort for many years, and from reports is deserving of all that has been said. The fruit as we have seen it: Color is a deep yellow, over-spread with carmine, except on the underside; the skin is smooth without much fuzz; the flesh firm, fine grained and unusually solid; parts freely from the stone; the flavor is most delicious, much better than yellow peaches usually run. Ripens a few days before Elberta.

ELBERTA CLING—Mid-season, yellow clingstone. An immense size yellow peach that looks like Elberta, but is a perfect clingstone. The tree is a sure heavy cropper and the fruit is of superb quality. Flesh firm, excellent shipper; goes on the market in good condition and brings top prices.

ELBERTA

Large, yellow with red cheek, flesh yellow, firm, juicy, of high quality. Exceedingly prolific, sure bearer and hardy. Is doing well in all peach sections, North and South. One of the leading market varieties. August 1st.

EARLY ELBERTA—Freestone, mid-season; yellow. The Early Elberta is truly named. It is of the Elberta type, large, golden, yellow, which is in beautiful contrast to the rich blush on the sunny cheek. The flesh is yellow like the Elberta but far better quality, sweeter and finer grained; higher color and a week earlier—going out as the Elberta is coming in. As a canning peach it has better flavor and color than the regular Elberta.

We recommend: Farm Journal - American Poultry Journal - Flower Grower - Town Journal - Popular Gardening - Country Gentleman.

Late Varieties

LATE ELBERTA—Late yellow freestone. Best sort between Hale and Krummel. Looks just exactly like Elberta, but ripens two weeks after it. Better flavor. One of the best shippers, comes on market when yellow peaches bring top prices. Tree satisfactory in growth, bearing and hardiness. It has been one of our most satisfactory varieties. Late peaches are profitable. Fourteen days after Elberta. Cooking, eating, canning, market.

MAMMOTH HEATH CLING—Very late white. Best strain of the well known White Heath. Fruit tender, melting, juicy, luscious, firm; does not bruise easily and ships well. Tree good grower, hardy, 40 days after Elberta. Cooking eating and market.

OLD FASHIONED RED INDIAN—Cling. Very highly colored, red as blood to the seed. There are many strains of Red Indian peaches on the market and a great many are very small and undesirable. Our buds from which our Red Indian were grown were cut from a tree that is the very best of all the strains.

Extra Late Variety

KRUMMEL OCTOBER — Best late peach. Latest yellow freestone. Gloriously red and gold. Hangs on after all others—till frost. Of great size, almost round, deep yellow, no bitterness next to the pit. Flesh firm. Favorite for pickles. Strong grower, extremely hardy, bears young and seldom fails. Everywhere—East, West, North, South. Late varieties always pay, and Krummel leads in big profits. It comes on the market after all other good freestones are gone. Forty days after Elberta. Cooking, eating, canning, market.

NECTAR PEACH

Ripens July-Aug. The best early freestone we have ever seen. It has size, beautifully colored, with a light yellow overlaid, with red blush, a distinctive flavor with a delightful suggestive Nectarine tang and a wonderfully appetizing aroma, firm, juicy, finely textured, almost no fuzz on the skin, when ripe the skin will peel off like a banana and the flavor is best quality and should be in every family orchard. 2-4 ft., \$1.85; 4-5 ft. trees \$2.29 each.

PEACH SPECIAL

12 Peach Trees that ripen from the earliest until late, of our best varieties.

- **EARLY RICHMOND**—Everywhere the most popular. Tree strong, thrifty grower, making a large, symmetrical head; fruit medium, size, dark red, melting, juicy, sprightly, acid flavor and especially valuable for cooking purposes; tree an early and abundant bearer. Season last of May and first of June.
- **ENGLISH MORELLO**—Tree moderate grower, hardy, an early and great bearer; the most valuable of the late varieties. Fruit large, round; skin dark red, becoming nearly black when fully ripe; flesh dark red, tender, juicy and a pleasant sub-acid flavor when fully ripe. July.
- **IMPROVED MONTMORENCY**—A fine large light red cherry of the Richmond class but larger and more solid; a more upright grower, equally hardy and productive. Second only to Early Richmond in value. Ripens ten days later.

Hansen Hybrid Bush Cherry

Large, purplish red, sweet fruit, 1/2-inch or more in diameter. Excellent for serving fresh and for jellies.
 Dwarf grower, approximately 3 feet in height and spread. Ornamental as well as fruitful, being covered with white flowers in Spring, and foliage turning red in Autumn. Ripens early July.
2 to 3 ft., ea. 84c; \$8.42 doz.

HYBRID PERSIMMONS

2 to 3 feet—\$1.99

- Some of these should be planted by every family. The fruit often measures ten inches in circumference. They ripen in August, September and October. The trees bear young, and are very ornamental.
- **EUREKA**—Very large, oblong, pointed, flesh yellow, skin red.
- **TANE NASHI**—A large acorn-shaped seedless persimmon, pale yellow and very productive. This is the persimmon you see in most stores. It is frost resistant and widely adapted.

BRAND NEW UNARK CHERRY

Originated at Fayetteville, Ark., and was introduced by Dr. Rosen of the University of Arkansas. Named Unark meaning the University of Arkansas.

This cherry is a large yellow sweet cherry. It bears every year and does not have to be pollinated with any other variety. It is as fine a yellow cherry as we have seen or ever heard of. The original tree stands 1 1/2 blocks off the square at Fayetteville, Ark.

Don't fail to order at least one of these trees. We have only a limited quantity on hand to sell this year.
 (Limit 5 Trees per Customer) **\$344**
4 to 6 feet, each.....

THE MUSCADINE GRAPE

Well known Southern grape that will bear profusely without any pruning or spraying, but does need a pollinizer.

Price for Two \$1.85

THE MOST POPULAR VARIETY OF NECTARINES

➤ **SURECROP**—Red freestone underlaid with yellow.

2 to 3 ft., \$1.24; 3 to 4 ft., \$1.49;
4 to 5 ft., \$1.95

A most unusually outstanding and delicious fruit. A cross between a peach and a plum. Resembles a peach in shape, size, and flavor. As fuzzless as a plum. Fruit is large, juicy and melting. Unequaled either as a fresh fruit or for canning. Flesh fine grained and a beautiful color clear to the pit. Destined to become one of America's most popular tree fruits. Has the same habit of growth and bearing as the peach, and requires the same care.

FIGS

Under 1 ft. 83c each;
1 to 2 ft. 93c each
2 to 3 ft. \$1.05 each

➤ **EVERBEARING FIG**—Ripens its fruit from July until frost and each tree will produce fruit first year. Bears on its new growth. Light straw to brown in color, medium size and very sweet. Does not crack easily. Extra good for preserves or eating fresh.
 Figs should be planted more extensively. Do not let the sprouts or suckers grow, but prune the trees so as to have clean bodies at least two feet high. Cut tops back to six or twelve inches above the ground when planting. Such trees will bear fruit and will stand much colder weather than if the sprouts are allowed to grow.

MULBERRIES

3 to 4 ft., \$1.25 each

➤ **HICKS**—Wonderfully prolific; fruit sweet, excellent for poultry and hogs. Fruit produced during four months.

SAVE MONEY! We Allow 10 Per Cent Off the 100 rate prices on lots of 1,000 and up on Apples, Peaches, Plums, Cherries and Pears.

We accept orders subject to stock being unsold when your order comes up for shipment and we are not liable for more than you have paid, which will be promptly refunded in case we cannot fill your order.

BIG JUICY STRAWBERRIES

STANDARD VARIETIES

25 for 89c; 100 for \$2.39;
1000 for \$13.89

- **BLAKEMORE**—Extra early fruit of bright red color, best market berry yet introduced. Bears enormous quantities of fine quality berries. Fine for freezing, good shipper.
- **SENATOR DUNLAP**—A great producer and a money maker. One of the very best for canning and home use. Exceedingly productive, a sure cropper and a drought resister.
- **KLONDIKE (Improved)**—The standard berry for the southern and middle states and does fairly well in the northern states. Productive, brilliantly colored and so firm that on the northern market it classes a re-shipper; commands top-notch prices.

25 for \$1.00; 100 for \$2.50;
1000 for \$16.00

- **TENNESSEE SHIPPER**—A large, very firm, well-colored berry that sizes up well and retains its size throughout the season. High yield per acre and fine shipping qualities. One of the best for table use, preserving or freezing.
- **PREMIER**—Among the first to ripen. Fruit large size and deep red color. Firm flesh and excellent quality. Heavy yielder and makes thrifty growth. You can depend on Premier for a good crop when other varieties are a failure. Foliage is not susceptible to the leaf spot.
- **AROMA**—In matters of productiveness, quality, flavor and market value, the Aroma is so much superior to the other old standard late varieties that we urge old customers to plant Aroma heavily and increase their profits by prolonging their berry season.

- **ROBINSON**—A new variety with large size beautiful bright red and firm berries. A worthy mid-season to late berry specially adapted to commercial growing. A free plant maker and has healthy foliage.

IMPORTANT NOTICE!

A new disease of strawberry plants (Red Stele Root Rot) is very destructive and reports of damage vary from 40 to 92 per cent reduction in fruit crop. No treatment of the disease is known and the fungus will live in the soil for several years making it unprofitable to produce strawberries on the same land where the fungus has been in the soil. This disease is spreading rapidly. **DON'T TAKE ANY CHANCE OF GETTING INFESTED PLANTS. ORDER FROM US.** Our plants are twice inspected, once in the Spring for Red Stele disease and once in the Fall for all kinds of insects and diseases that attack strawberry plants. Our plants are found to be apparently free of all diseases. **ORDER OUR PLANTS FOR HEALTHY STURDY PLANTS. DON'T GAMBLE ON CHEAP PLANTS AND LOSE YOUR FRUIT CROP.**

TWO BRAND NEW STRAWBERRIES

NEW ARMORE—Most recent introduction by University of Missouri, Blakemore X Aroma cross. Large size, firm fruit, which is dark red all the way through. Even though it is an extra large Strawberry, it does not have a core or

cavity in the center. Holds up extra well in shipping. At the flowers will mature fruit, and will hold size well until end of season. Ripens 10 days later than Premier. All reports from growers are very enthusiastic. We believe this berry will become a great commercial variety.

25 for \$1.20; 50 for \$1.95; 100 for \$3.20; 1000 for \$18.00

Be sure and try this new berry. It canes like a raspberry, growing 18 to 24 inches high, it also caps like a raspberry, but the berries have that good strawberry flavor. Ripens the latter part of July.

Price: 25c ea.; \$2.50 doz.

OZARK RASPBERRY- STRAWBERRY

FINEST EVERBEARING STRAWBERRIES

Ozark
Beauty**

- Bears fruit in 60 days.
- Excellent fresh or frozen.
- No special soil or care needed.
- Bright red color to center.
- 3 big crops in 18 months.
- Bears till heavy frosts in fall.
- A flavor you'll never forget.
- Hardy and hale as an Oak tree.

(Everbearing) — The healthiest and most productive strawberry we have ever seen. Bears large berries of the finest flavor one could want, and lots of them. Being introduced for the first time in Spring of 1956.

12 for \$2.00

Enjoy Plenty of Ozark BERRIES

RASPBERRIES PAY BIG PROFITS

NEW BLUEBERRIES— GROW YOUR OWN BLUEBERRIES— PICK THEM FRESH OFF THE BUSH

Cultivated Blueberries are hardy shrubs of rare beauty; they are doubly valuable because they are fruitful and ornamental all year.

As a commercial proposition it is one of the most profitable fruits to grow. There is a big market. They make good money in a very short time, for you can begin picking the second or third season after planting.

Choose a piece of ground easily supplied with moisture during dry summer months; it should not, however, at any time become water-logged. Plant in full sun if possible; they will also do well in partial shade. Be sure the soil is acid. Give only shallow cultivation, not over 2 to 3 inches deep, so as to leave the roots undisturbed.

CONCORD. Bush of upright habit, at maturity exceeding 6 feet in height. The berries are large.

JERSEY. Very large and vigorous in habit. light blue berries are very large.

2-Yr., 12 to 18 in. **\$16.00**
 3 **\$9.50**
 6 **\$5.50**
 Each **\$1.98**

We recommend ordering both varieties so they will cross-pollinate and fruit freely.

Purple Variety

SODUS — An excellent home use berry, delicious for desserts, canning, preserves, jelly, etc. A very large, juicy fruit, a fruit that is easily grown and very hardy, adapted to cold and dry weather; does not have many briars, and yields very heavily.

Red Variety

LATHAM (Minnesota No. 4) — A new introduction from the Minnesota state breeding farm. A very firm, large and most prolific red raspberry yet introduced. It is extremely hardy and of the very best quality. It has been largely planted in Minnesota and has given the best results. It stands shipping well and tops the market. It is mosaic-free, a disease that attacks raspberries sometimes. Plant some in your garden. You will never regret it. It is claimed that many fruit growers are averaging \$1,000 per acre a year.

Black Variety

CUMBERLAND — The largest of all the blackcaps; coal black berries; very firm and the quality of the very best; excellent shipper. Bush is a strong grower, stocky canes and unusually prolific. Mid-season.

BENCO'S NEW GOLDEN QUEEN RASPBERRY

A real novelty! Sensational yellow Raspberry of the black Raspberry type. A chance seedling that is a cross between the red and black Raspberry—berry, a rich golden color of medium size. Its flavor is entirely different from any berry grown. Grown in preference to the red and black Raspberries, because of its sugar-sweet flavor. Just before the berry fully matures it is a rich yellow color, and when fully ripe a rich golden yellow. Truly a novelty shrub for your garden—most unusual feature is that after first frost, canes will turn a rich yellow color, fruit can be eaten fresh or can be preserved; again they are very outstanding in a glass fruit jar, berries retain rich golden color. Get some for your garden now!

MAMMOTH BOYSENBERRY THE BIGGEST BERRY GROWN

Plant the New BOYSENBERRY for Handsome Profits

BOYSENBERRY

3 for 47c 12 for \$1.77 25 for \$3.14 100 for \$13.13

Said to be the largest and finest vine berry ever introduced. The Boysenberry is a new variety produced by crossing blackberries, raspberries and Loganberries. The flavor is a very pleasing blend of these varieties. It has few and soft seeds. The plant is very vigorous and hardy, coming through in good condition without injury, in temperatures as low as 10 below zero. The berries are extremely large, many of the berries getting more than two inches long and over one inch in diameter.

Sensational Thornless Boysenberry Each, 25c; Doz., \$2.10; 100, \$15.75

Probably the biggest berry ever developed. Imagine berries 1½ to 2 inches long, so large that 20 make a pint, and are so productive that 100 plants produce 50 gallons of fruit the second summer. That is the record of Boysenberry. The beautiful wine-red fruit combines the delicious flavors of Loganberry, Blackberry and Raspberry, of which it is a cross. No new fruit in many years has caused such a sensation as Boysenberry. In addition to all these remarkable qualities, the plants we offer here have NO THORNS.

DEWBERRIES

**3 for 41c; 12 for \$1.56
25 for \$2.93; 100 for \$10.17**

Lucretia—Fruit very large, luscious and sweet; perfectly hardy, healthy, enormously productive; a very prolific market fruit; the vines should be allowed to remain on the ground during the winter and staked up early in the spring. Fruit ripens early, is often one and one-half inches long.

BLACKBERRIES

**3 for 41c; 12 for \$1.56
25 for \$2.93; 100 for \$10.17**

EARLY HARVEST—The earliest to ripen and the most productive of the early sorts. Medium size, glossy black, good flavor and good shipper. Planted extensively in the south for canning. Ripens so early that it always sells at enormous prices.

LAWTON—A heavy yielding Blackberry that is probably the most widely grown commercial Blackberry. Berries are of enormous size, glossy jet-black, and of sweet pleasing flavor. Very firm and outstanding for their ability to be sent to distant markets remaining in good condition. Always commands highest prices and grand for home planting. Ripens in July.

OZARK BEAUTY—Superior to any blackberry grown where it has become known, this blackberry is hardy, stands drouth. It is almost free from seeds and has no objectionable core. It has little or no juice, the pits being filled with a thick syrup or flesh of the berry. Ripens just after Early Harvest. The berries are very large and best quality. You will make no mistake in ordering Ozark Beauty.

EVERBEARING BLACKBERRY

This is one of the latest creations in blackberries. Bear enormous crops, beginning to ripen just after the early harvest and continue almost until frost; the berry is very large, of fine quality, melting in your mouth and does not have a large core. Husky growing plants, standing erect, resembling small trees from 6 to 8 feet high and branch heavily. We have only a very few for the market this year.

**12 for \$2.87; 25 for \$5.39;
100 for \$17.20**

BENCO'S CRYSTAL WHITE BLACKBERRY

PROSO The WONDER EGG and Meat Producing Poultry Grain

Here is a new Poultry Grain that owes its origin to Russia, that enables you to raise your own feed. It grows more rapidly and matures quicker than other grains. It reaches a height of three to four feet, stools and branches making fifteen to twenty-five heads instead of one. **Wonder Egg and Meat Producer for Chickens, Ducks and Geese.** Proso makes a splendid mash when ground alone. When feeding with corn or oats the ration should be four parts Proso to one other grain. It may be fed in bundles as the kernels are readily scratched out of the heads, or it may be fed as clean grain from the thresher. Produces more eggs and meat per bushel than ordinary grains.

Fine for Hogs, Cattle, Sheep. Grows Anywhere. May Be Planted Late. Although a native of Russia, Proso does better, grows faster and matures quicker in our climate. It may be planted any time after corn planting time up to the middle of July.

Trial Pkg. 47c	2 1/2 lbs. \$1.31	5 lbs. (1 acre sowed in drills) \$2.10
12 1/2 lbs. (1 acre sowed broadcast)	\$4.20	25 Pounds \$7.88

GRASS SEED FOR A BEAUTIFUL LAWN

Perennial Rye Grass Seed

(WINTER GREEN)

A fine winter lawn grass. Fast growing with broad, flat blades of a beautiful green color. When scratched in the present lawn it will produce in about two weeks. It makes a beautiful solid carpet of green by itself. Sow about 10 lbs. per 1000 sq. ft. (50'x20'). When planted on Bermuda or carpet lawn the grass should be mowed as closely as possible before sowing Winter Green seed. It lasts until the Bermuda grass or carpet grass comes up in the summer. It does well in sun or shade.

1 lb. 63c; 5 lbs. \$2.63

MAYFAIR LAWN GRASS

Contains seed of the following: Kentucky Blue Grass; Red Top-Herds Grass; Creeping Red Fescue, Alta Fescue-Rye Grass, English Blue Grass, Domestic Rye Grass, Perennial Rye, and White Clover.

1 lb. \$1.31; 5 lbs. \$6.30

KENTUCKY BLUE GRASS

Excellent lawn grass; ideal for golf fairways and putting-greens; the sweetest and best pasture grass. Plants slightly creeping with deep green narrow leaf blades. 1 pound plants 250 sq. ft. for lawns; 40 pounds per acre for pasture. Plant in the fall and early Spring.

1 lb. \$1.10; 5 lbs. \$4.98

SOD YOUR LAWN WITH ONE OF THESE FINE GRASSES.

NEW U-3 BERMUDA

THE SUPERIOR LAWN GRASS

If you would like to have a beautiful lawn . . . that will grow luxuriously in hot summer weather and sun . . . that chokes out crabgrass and summer weeds . . . requires little or no water . . . is permanent, wear and disease resistant—**THEN HERE'S YOUR GRASS!**

U-3 makes a permanent lawn. In the deep south, it stays green practically all year. Makes a close dense turf. Children can romp and play on it without its showing any wear. It stays green longer than other Bermuda.

Since U-3 grows no seed, it is furnished in cut-up roots which should be planted on 12-inch centers. Easy to plant. All that is necessary is to cut little holes in your lawn and fill with water, place cut-up roots in the holes and cover with dirt. Runners will go out and in a matter of a few weeks will meet and start to build up a dense, springy turf.

Trial Package (Plants more than 100 sq. ft. on 12-inch centers)..... \$1.98
Standard Package (Plants more than 1200 sq. ft. on 12-inch centers)..... \$16.20

SUNTURF

The lowest, and fastest growing of all the bermudas. When planted on squares 1 ft. apart it will very soon cover the entire surface with a solid turf that you can drive a car over and scarcely make a dent in it. One square foot cut into 1 inch squares will plant 144 sq. ft.

Price \$1.85 per sq. ft.

ZOYZIA GRASS

Forms a dense turf that crowds out weeds and other grasses. Once established, requires just half the water other grasses need. Needs mowing only A THIRD AS OFTEN as ordinary grasses.

Price 90c per sq. ft.

PASTURE GRASS

MIDLAND BERMUDA GRASS

Said to be the best pasture grass yet put out. It will grow 12 to 18 inches high and will furnish more grazing for stock and come nearer lasting them all winter than any grass we know of. To get started plant the sprigs and it will soon cover your ground: 2 bushel baskets will plant about 1/2 acre.

Price \$4.95 per bushel delivered to your mail box.

EXCELLENT FOR SHADE

NUT TREES

ALWAYS PAY BIG PROFITS

New Chinese CHESTNUT (Blight Resistant)

Years ago the Chestnut blight destroyed our Native American Chestnuts. The U. S. Dept. of Agriculture—after many tests—introduced this type of Chinese Chestnut not only blight-resistant, but an early-bearer of large, good quality nuts. Trees start bearing when very young, often in 2 to 5 years. Plant at least two trees for good pollinization in well drained soil. Makes a beautiful tree for lawn plantings.

2 to 3 ft. high 2 yr. Size Trees, 2 for \$3.20

FILBERTS (or Hazlenuts)

Good quality and bear almost every year and very young.

2 to 4 ft., \$1.03 ea.; \$10.34 doz.

ALMONDS

Soft shell, rich and deliciously flavored, rapid growing trees and bear very young.

2 to 4 ft., \$1.90 ea.

BUTTER NUT (OR WHITE WALNUT)

The nuts are large, long and nutritious. Trees are lofty and spreading with a tropical appearance.

2 to 4 ft., \$1.77 ea.; \$17.88 doz.

BLACK WALNUTS

Selected from good strain of large nuts, and fine kernels. Trees are fast growing and good for shade trees as well as nuts.

2 to 4 ft., 83c ea., \$8.35 doz.

JAPANESE WALNUT

Fast growing tree; a beauty for ornamental use; perfectly hardy and valuable for its delicious nuts.

2 to 4 ft., \$1.46 ea.; \$14.65 doz.

PECANS

Improved Stuart Seedling

at extremely low prices. Be sure to order some of these. Grown from Genuine Stuart Pecans.

2 to 4 feet, \$1.25 each

THOMAS BLACK WALNUT

The BIGGEST of all WALNUTS and FASTEST GROWING

Make Over 73% More on Them

THOMAS BLACK WALNUTS SHOULD BE PLANTED 40 feet apart each way, making 27 trees per acre.

Look What Big Profits You Make by Planting Our Thomas Black Walnuts

Here are the figures:

1 Bu. of Black Walnuts will run about 45 lbs. 1/4 of a bushel of Thomas Black Walnuts will be kernels or 11 1/4 lbs. Only 1/7 of a bushel of Common Black will be kernels or 6 1/2 lbs.

YOU GET 4 3/4 Lbs. More Kernels from Thomas Black Walnuts at an average price of 75c per lb. A bushel of Thomas Black Walnuts would bring \$8.44 or \$3.57 more than common Walnuts.

An improved, grafted Black Walnut. A Jumbo, thin shell walnut that will grow and bear anywhere. Kernels are of Giant Size and come out in halves, bears young and very heavy. Meats of delicious flavor. Tree makes a beautiful, valuable shade for your home.

2 to 3 ft.....\$2.50

3 to 5 ft..... 4.25

THOMAS BLACK WALNUTS SHOULD BE PLANTED 40 feet apart each way, making 27 trees per acre.

PECAN PLANTING INSTRUCTIONS

Be sure to plant PECANS about 3 inches deeper than they grew in the Nursery. Fill in around them with good rich garden soil and water them in as they are planted.

PAPER SHELL PECANS

1 1/2-2 ft., \$2.50 ea.
2-3 ft., \$3.00 ea.

The two varieties named are considered the best of all pecans. They have been recommended by the United States Department of Agriculture as being immune to scab and other diseases to which most varieties are susceptible.

STUART—Very large, oblong, marked with dark color, shell medium thickness, flavor rich and sweet; nuts averaging 40 to 60 per pound. One of the earliest and heaviest bearers. No one will make a mistake in planting largely of this variety as it succeeds on the different soils, especially on the clay soils of the northern portion of the cotton belt.

SUCCESS—Size large, oblong, tapering to the apex. Color reddish brown, purplish markings, shell thin, cracking quality good; parity very good. The tree is a good grower. A fine variety. Success usually is one of the latest to start growth in spring.

SPRAYMATE

Only \$4.89

The Spraymate is the handiest sprayer you can have around your home

farm. It's a compact, yet efficient unit, that will give complete coverage for all spraying jobs. All moving parts are made of brass, eliminating any possibility of corrosion or rust. Fits any standard Mason jar. Adjust the nozzle, from a heavy fog to a long stream to meet your spraying requirements.

The NUT FAMILY Assortment

Hazelnut said to Chestnut that this Nursery aims for all of us nuts to be moving. You see what they are doing to us, they are just giving some of us away, and I feel it's a shame. They are sending one of us in each collection for only \$13.13 and that includes: Stuart Pecan worth \$3.00, Thomas Black Walnut \$2.50, Almond nut \$1.67, Butternut \$1.77, Japanese Walnut \$1.46, Chestnut \$2.08 and Hazelnut \$1.03. And they say Chestnuts don't bear well without another tree for cross pollination and they send an extra one free. Some of us are big enough and old enough to start making nuts right now. All of us will be making nuts within 2 or 3 years.

\$13.13

IMPORTED PRUNING SHEARS

Highest quality. 8 1/2 inch full polished with replaceable coil spring.

Each \$195

IT WILL PAY YOU TO PLANT THESE GARDEN FAVORITES

HORSERADISH

It is easy to grow as a weed, and every good housewife knows its great value in the making of sauce and seasoning. Once used in pickle, it will never be done without. Horseradish sauce is one of the chief appetizers of the golden old-time southern cuisine. It is also one of the new sauces or condiments that is pronounced by the best authority to be perfectly wholesome. A dozen plants will supply a large family for a lifetime, and it grows and multiplies very fast.

17c each—\$1.73 doz.

SAGE

HOLT'S MAMMOTH—Plants very robust, perfectly hardy, ornamental. Large leaves, finest flavor; used for seasoning sausage, meat dressing, etc. Also for medical purposes. Should be in every garden.

31c ea.; \$3.00 per doz.

RHUBARB

RHUBARB (Pie Plant)

CULTURE—Good plants are easily grown in any good soil. Plant four feet apart each way, in deep, warm and very rich soil. The more manure the better the stalk. For winter forcing, take up two-year roots in fall, leave out to freeze, then bed close together on cellar bottom or under greenhouse bench in the dark.

STRAWBERRY RED RHUBARB

Another new red Rhubarb that is a prolific yielder. The stalks are intensely red, even the flesh is red. The skin is so tender it can be cooked with the stalk. The stalks are smaller than the McDonald.

67c each; \$6.77 dozen

We Have the Best Kinds Grown

Improved Giant Victoria Royal Albert Strain

This is one of the greatest and most valuable vegetables we have ever offered. It is the earliest, tenderest, sweetest and best of all rhubarbs; fit for use in early spring, summer and all fall, while the common or sour sorts are fit for use only a few weeks in the spring. As fast as stalks are pulled new ones take their places. Scarcely has the frost disappeared until your table is supplied with this delicious, refreshing and healthful article of food which is so much desired and appreciated. The stalks are twice the size of the ordinary kind, and of a bright, crimson color, very tender, crisp, and of mild, delightful flavor; the skin is so tender it does not have to be removed when cooking and the sauce has a deep crimson color. Stalks will average 10 to 24 inches long; broad, thick and solid; stalks will weigh on an average one-half pound each and often weight a full pound. Enormously productive, brings high prices and is a great money maker and in great demand. Try a dozen or two, our word for it, you will never have cause to regret your purchase, and you will never be without some of this variety.

Strong Roots, each 18c;

\$1.71 per doz.

\$11.55 per 100

ASPARAGUS

MARTHA WASHINGTON

A very strong grower, stalk giant size, green color, rich and tender. In addition to being very productive it is rust-resistant and a bed will last for years.

72c per doz.

\$2.57 per 50

NEW PARADISE

New introduction about twice as productive as others. Large, plump stalks, tender from top to bottom—keep shooting up for about 2 months each spring. Fine for canning or freezing. Rust-proof, disease-resistant.

93c per doz.

\$3.35 per 50

Novelties from the HEART of the Ozarks!

OZARK HUCKLEBERRY

This delicious little berry is a native of the Ozark Mountain range, remarkable for its fine flavor, is a choice fruit for jams, pies and fruit cake. Grows luxuriant, very hardy; a prolific bearer, and when given a small amount of attention produces regular annual crops. Will grow on almost any kind of soil, and when once set is there permanently, never having to be renewed.

33c each — \$3.41 doz.

MINT (Piperita)

Peppermint, also known as brandy mint. A perennial herb 1 to 3 feet high, characterized by its strong, pungent oil, reproducing by underground stems. Has purple flowers in terminal spikes, nearly 3 inches long. It grows well in wet soil.

18c each — \$1.75 doz.

BAMBOO GRASS

Arundinaria, japonica: The hardiest of the group and safely planted throughout the United States, stems 10 to 12 feet in height, leaves flat, short-stalked, from persistent sheaths. Flowers grass-like, in flattish spikes which are gathered in large, often plummy clusters. Fine for summer and fall screens.

33c each — \$3.41 doz.

ELDERBERRY

The small white flowers come in large, handsome clusters; very fragrant, handsome, opening in early summer when other flowers are scarce. Fruit black, very profuse; ripening in August. Grows 6 to 8 feet high. Berries are highly esteemed for pies, sauce, cordials, and highly flavored wine which is very refreshing. Everybody likes these Elderberries; they are easy to grow and do well everywhere.

39c each — \$3.99 per doz.

WHITE RIVER CANE

Makes excellent fishing poles. Grows 20 to 30 ft. high in good rich soil. Grows and multiplies very rapidly.

33c each — \$3.41 per doz.

GLADIOLUS SPECIAL NO. 33

Good varieties and a good assortment of colors. This lot will make a gorgeous lot of fine blooms first season. 108 Good Blooming Size Bulbs.

All for Only \$6.12

20 Gladiolus (Mixed Colors) \$1.71

PAW PAW or "ARKANSAS BANANA"

A small tree with purplish or whitish flowers and handsome foliage. The large fruit is edible and improves by cultivation. Hardy as far north as the middle of Nebraska. Worthy of more extensive planting. Very desirable as an ornamental tree.

Price on First-Class Trees
\$1.13 each — 12 for \$11.37

SASSAFRAS (Verolium)

Usually a small, slender tree, but specimens up to 100 feet high. Flowers yellow, usually in racemes that bloom before the leaves unfold, delightfully fragrant. Fruit blue-black with a bloom, on fleshy, bright red stalks. Almost no native trees have such gorgeous scarlet foliage in the fall. The roots make a fine healthy tea in the spring of the year.

3 to 5 ft., \$1.13 each

Arkansas
Native Persimmons
A very large seeding variety.
\$1.13 ea.; \$11.37 doz.

NIAGARA

FAVORITE VARIETIES

WHITE

NIAGARA—Occupies the same position among the white varieties as Concord among the black. Bunch and berries large, greenish white, changing to pale yellow when fully ripe. Skin thin but tough; quality much like the Concord.

BLACK OR PURPLE

CARMAN GRAPE — Vines very hardy. Grapes large, black and thick on the cluster. Bears from one to two bushels per vine. Very good eating grape—they outsell anything else on the market.

RED

DELAWARE — The bunches are small, compact, and sometimes shouldered; berries are small with thin but firm skin; flesh juicy, very sweet and refreshing and of the best quality for both table use and for wine. Ripens with Concord or a little before; vine is hardy, productive and a moderate grower.

Ben-Co's New EVERBEARING CYNTHIANA

This new Everbearing grape begins to ripen with Concord and continues until frost. Has ripe grapes, green ones and blooms on it all the time. The best red wine grape known. Red wine made from this variety, grown at Bushburg, Mo., about 25 miles south of St. Louis, won first prize at the World's Exposition at Vienna, Austria, as the best red wine from all nations. (This grape originated here in Benton county, Ark.). A very vigorous grower. Does not require a rich soil; prefers a dry soil of moderate fertility. Has a higher content of sugar than any grape known. About the size of the Delaware. Clusters are large; color is black covered with blue bloom.

AMARYLLIS HALLI

(Mystery Lily)

Foliage appears in early summer but soon ripens and dies; and in August the lovely lilac-pink flowers suddenly appear on the naked stalks. The flower is large and beautiful lily-shaped. Blooms to a height of two to three feet.

2 for \$1.00; 6 for \$2.89

BLUE SIBERIAN IRIS

A superb plant for any flower garden. Grows about 30 inches high. Flowers are violet blue. Blooms in June and July. A good cut flower. Grows in damp but not swampy places. Be sure to order a few of these plants for your garden.

Price 20c each; \$2.05 per doz.

Oriental Orchids of the Garden

(IRIS KAEMPFERI)

Your garden is not complete until you have this beautiful flower growing in your perennial collection. Now you can grow your own Orchids by planting Iris Kaempferi, which is entirely different from all other Iris and comes into bloom as the early summer fades, continuing to bloom until mid-fall. The huge blooms of velvety texture measure 6 to 8 inches across. The leaves are 1 1/2, narrow and gracefully formed, and the plants remain decorative even after the blooming period is over. It is no wonder that the Kaempferi is called the "Orchid of the Garden." Excellent for cutting it will grow 3 to 4 feet high. Plants thrive in well drained fertile soil (it is fatal to select a location where water stands during winter.)

Mixture of Colors: Rose, White, French Blue, Purple-Velvet, Lavender, Variegated. (Our selection of colors)

20 for \$1.00; 100 for \$4.49

133

Distinctive and Outstanding SHADE TREES

The TWO MOST POPULAR OZARK TREES

← **MAPLE, SUGAR** (Hard Maple) — Excellent for street and lawn planting. Produces maple sugar. A tree of magnificent proportions, often 80 feet in height, straight, spreading and symmetrical. Long lived. Roots deeply, allowing grass to grow close. Dark green leaves turning to scarlet and gold in autumn. 2 to 3 ft., \$3; 3 to 4 ft., \$1.31; 4 to 5 ft., \$1.58; 5 to 6 ft., \$2.59; 6 to 8 ft., \$3.46; 8 to 10 ft., \$4.89.

JUDAS TREE (*Cercis Canadensis*) (Red bud) →
—A small growing tree of irregular form, with heart-shaped leaves it is covered with delicate pink blossoms early in spring before the leaves appear. A charming association among the tender greens and bronzes of young foliage. 3 to 4 ft., \$1.15; 4 to 6 ft., \$1.58.

QUICKER SHADE AND BEAUTY BEAUTIFUL DOGWOODS

PLANT NOW for

ALANTHUS (or Tree of Heaven)—The large pinnate leaves of this tree give it a tropical appearance, a very rapid grower, withstanding smoke and dust better than most any other kind of tree. 4 to 6 ft., \$1.58; 6 to 8 ft., \$2.10.

ASH, Green (*Fraxinus Lanceolata*)—One of the best native trees; leaves dark green and effective throughout our long summers. Native throughout America. 4 to 6 ft., \$1.05; 6 to 8 ft., \$2.10; 8 to 10 ft., \$3.15.

BLACK GUM—A native that adapts itself to all kinds of soils and one of the most beautiful trees that grow in the Ozark Mountains. It is a close, compact growing tree, from 20 to 40 feet in height; the foliage is thick and dark green, making a very close dense shade early in the fall. This foliage turns blood red, making it a thing of beauty for weeks before the leaves fall off. 4 to 6 ft., \$2.21.

CATALPA SPECIOSA—Broad, deep green foliage, with large, fragrant trumpet flowers in clusters in the spring. The Catalpa is a native of most parts of the South and is valued for its durable timber and for ornamental purposes. 2 to 4 ft., \$3; 4 to 6 ft., \$1.31; 6 to 8 ft., \$1.73.

CHESTNUT, HORSE—A large tree of regular outline, 60 to 80 feet tall, completely covered in May with great upright spikes of white flowers. Satisfactorily either as a street or lawn tree, particularly desirable where dense shade is required. 2 to 3 ft., 98c.

FLOWERING CRAB APPLES

CRAB APPLE, ALMEY—The most sensational of all flowering crabs with its large blooms of brilliant fiery crimson. 4 to 5 ft., \$2.50.

CRAB APPLE, Bechtel's Double Flowering—A handsome little tree seldom over 20 feet in height. One of the finest for lawn decoration. Produces in profusion double, young, and is very fragrant. 2 to 3 ft., \$2.63; 3 to 4 ft., \$3.15.

CRAB APPLE, Hops—One of the most desirable red flowering varieties. An attractive upright growing tree with large rose-colored flowers in the spring. 3 to 4 ft., \$1.58; 4 to 5 ft., \$2.10.

DOGWOOD, WHITE FLOWERING (*Cornus Florida*) —A slow growing dwarf tree with abundant, large white flowers, appearing very early in the spring before the grayish-green leaves, and followed by attractive red berries. Leaves turn to deep red in autumn. Grows 10 to 20 feet high. 2 to 4 ft., \$1.31; 4 to 6 ft., \$2.10.

DOGWOOD, PINK FLOWERING—(*Cornus Florida Rubra*)—Similar to White Flowering Dogwood except that the flowers vary from pink to light red. Grows 10 to 20 feet high. 2 to 3 ft., \$3.90; 18 to 24 inches for \$2.90.

ELM, AMERICAN—In our opinion the handsomest and most dignified of all the native trees. Probably more largely planted and better known than any other. A tall growing stately tree reaching 60 feet, with a wide arching top and vase-like form. Extensively used for street planting where arches over the street. 5 to 6 ft., \$1.58; 6 to 8 ft., \$1.84.

LINDEN, AMERICANA (*Basswood*)—A tall growing, stately tree, growing 60 to 80 feet tall, with large shining green leaves and light yellow fragrant flowers in July. A splendid tree for lawn and street planting. Valuable for its beautiful white wood. 5 to 6 ft., \$2.10; 6 to 8 ft., \$2.63; 8 to 10 ft., \$3.15.

LOCUST, Black (*Robinia Pseudacacia*)—Popular for both shade and avenue tree, as well as for wind-breaks and timber belts, white sweet-scented flowers in spring. 2 to 4 ft., 92c; 4 to 6 ft., \$1.46; 6 to 8 ft., \$2.08.

LOCUST, HONEY—An odd-shaped straggly growing tree. Flat top, somewhat weeping branches with finely cut dark green foliage. 2 to 4 ft., 92c each.

MAPLE, SILVER LEAVED (*Soft Maple*)—Leaves white underneath; of rapid growth; very ornamental and one of the best trees we have. 4 to 6 ft., \$1.35; 6 to 8 ft., \$2.05.

MIMOSA—Well known popular Southern tree. Long branches, wide spreading top. Pink flowers, dark green fernlike foliage. 2 to 4 ft., \$1.05; 4 to 6 ft., \$1.84.

OLIVE, RUSSIAN—Widespreading tree of moderate height. Its silvery foliage makes a beautiful specimen tree. 2 to 4 ft., 93c.

FLOWERING PEACHES

PEACH, RED (*Double Flowering*)—A beautiful small tree rarely over 20 feet tall; at its blooming time in May every twig and branch bright with beautifully formed flowers, rendering the tree showy and attractive at a distance. 3 to 4 ft., \$1.04.

PEACH—"New Peppermint Stick" Flowering Peach. The most beautiful of all Flowering peaches. Moderately double flowers, white marked with red stripes. 3 to 4 ft., \$1.58.

PEACH, Double White Flowering—3 to 4 ft., \$1.49. Remember, we send planting instructions with each order.

PERSIMMON, American—This is the puckery persimmon, an inch or more in diameter, orange yellow, with a bright cheek when touched by frost. The tree is very ornamental, with a round topped head and handsome shining foliage. 2 to 3 ft., 83c; 3 to 4 ft., \$1.05.

PRUNUS PISSARDI (*Purple Leaf Plum*)—A distinct and handsome little tree, covered with a mass of small white single flowers in spring; later with showy pinkish purple leaves that deepen in color to the end of the season. 3 to 5 ft., \$1.35.

SWEET GUM (*Liquidambar styraciflora*)—A native tree that is perfectly hardy. The glossy foliage in summer, the brilliant color in the fall and the unusual appearance of the young branches with corky bark in the winter are considerations that make it especially valuable. 4 to 6 ft., \$2.63; 6 to 8 ft., \$3.15.

TULIP TREE (*Whitewood*)—One of the grandest of our native trees, of tall pyramidal habit, with broad, glossy, fiddle shaped leaves and beautiful tulip-like flowers; allied to the Magnolia. Leaf color is clean, rather bluish-green shades which in fall turn brightest yellow. Flowers are 1 1/2 to 2 inches long, light greenish yellow marked at inside base with orange; appearing in May or June. 4 to 6 ft., \$2.00.

WILLOWS

WILLOW, GOLDEN WEEPING—A very showy low-barked tree reaching a height of 60 feet at maturity. A handsome tree at all seasons but particularly conspicuous in winter and early spring before the leaves appear. 2 to 4 ft., 79c; 4 to 6 ft., \$1.31; 6 to 8 ft., \$2.10.

WILLOW, PUSSY—A small tree with dainty white flowers. 2 to 4 ft., 92c.

WILLOW, WISCONSIN—A well known common weeping willow, makes large tree covered with drooping branches. 2 to 4 ft., 79c; 4 to 6 ft., \$1.31; 6 to 8 ft., \$2.10.

FAST GROWING SHADE TREES

ELM, CHINESE—A native of China; a noble, rapid growing tree, forming a very dense head with smaller, darker leaves than the American Elm. Leaves stay on the tree much longer in the autumn; the branches project from the trunk almost at right angles. A really beautiful shade tree for lawn and street planting.
2 to 4 ft., **62c**; 4 to 6 ft., **\$1.44**
6 to 8 ft., **\$2.25**; 8 to 10 ft., **\$3.10**

NOTICE All shade trees over six feet are priced FOB Rogers, Ark., and are shipped by express collect. You pay the transportation charges upon arrival.

PLANT FOR WIND AND COLD PROTECTION

A belt of trees planted around the farmhouse will reduce wind velocities by 50 per cent and reduce fuel consumption in farmhouses by as much as 30 per cent. A planting of these trees will soon pay for themselves.

WALNUT, BLACK

Valuable for nuts and timber. It is hardy and succeeds best on a rich, deep, moist soil. Too well known for long description.

4 to 6 ft., **\$1.15**; 6 to 8 ft., **\$2.39**
8 to 10 ft., **\$3.15**

SYCAMORE, AMERICAN

A well known tree very common throughout the United States; leaves heart shaped at base; the short lobes, sharp pointed branches are wide spreading.

4 to 6 ft., **\$1.31**; 6 to 8 ft., **\$2.55**
8 to 10 ft., **\$3.10**

BENCO'S RUBY TREE

PRUNUS CISTENA—A medium size growing tree. The leaves are fiery red to scarlet and branches also red. Light pink flowers in early spring. An amazing tree, hardy and easy to grow.

2 to 3 ft. **\$1⁴⁹** each

BENCO'S MAGNOLIA SOULANGIANA

Hardest Magnolia—Considered the most beautiful of all flowering trees. One of the first trees to bloom in early spring, the delightfully fragrant flowers appear before the leaves. Blossoms are very large, often 8 inches across, purple-pink on the outside and white on the inside. Grows 10 to 12 ft. tall and starts blooming when very young, often the same year planted. Not recommended for planting north of Missouri, Kansas. Marvelous in all southern states.

18 to 24 inch **\$3⁴⁹**

GOLDEN RAIN TREE

One of rarest and most beautiful trees that blooms in spring with large showy yellow clusters. Plant in spot protected from winter winds.

3 to 4 ft. **\$4.50**

THE BEST POPLARS

POPLAR, CAROLINA

A very rapid growing tree, giving shade in a very short time. Very easy to transplant and does well on any kind of soil. Durable for roadside plantings, in parks and along rivers and streams for the protection of the banks. Used extensively for screen to hide unattractive buildings. Attains a height of 60 feet at maturity. Bright, heart shaped, glossy green leaves, silvery white underneath.

2 to 4 ft., **53c**; 4 to 6 ft., **83c**;
6 to 8 ft., **\$1.14**; 8 to 10 ft., **\$2.19**

POPLAR, LOMBARDY

A tall, narrow tapering tree, 60 feet high at maturity, a striking feature in any landscape. Fine for planting in groups, along driveways, or to make boundary lines. Sometimes used for tall screen hedges.

4 to 6 ft., **83c**, 10 for **\$7.35**; 6 to 8 ft., **\$1.14**, 10 for **\$9.45**; 8 to 10 ft., **\$1.98**, 10 for **\$19.80**.

ORDER THEM FROM PAGE 14

BENCO'S PURPLE FRINGE MAGNIFICENT SMOKE TREE

One of the loveliest native American ornamentals. When in bloom gives the unusual appearance of a brightly colored cloud of smoke in June and July. The beautiful shining green foliage colors beautifully in the fall.

2 to 3 ft. **\$1⁴⁹** each

BENCO'S MOUNTAIN ASH (European)

A most popular tree in America as it is in Europe, attaining a height of 18 to 25 ft. It is laden with drooping clusters of bright red berries against a background of soft green foliage.

4 to 5 ft. **\$3⁴⁹** each

BENCO'S CUT LEAF WEEPING BIRCH

The gleaming white bark and graceful drooping branches with delicately cut leaves, gives a striking beauty, summer and winter, unmatched by any other ornamental tree. Does best in northern and eastern states. The white bark comes a year or two after planting.

3 to 4 ft. **\$3²⁰**

BENCO'S NEW "RED FLOWERING WEEPING PEACH"

We offer this wonderful Ornamental Weeping Peach. With large red flowers and weeping habit of growth similar to the weeping flowering cherry. You will be proud to place it in a prominent place in your yard so that it will be a specimen plant that will truly be a source of inspiration to your friends and neighbors.

18 to 24 inch **\$1⁵⁹** each

ORNAMENTAL SHRUBS AS LOW AS 13¢

WHEN YOU BUY THIS SPECIAL ASSORTMENT

ALMOND—Early spring flowering shrubs, gaily in full bloom before the leaves appear, with beautiful double flowers of rose, snuggling tight to the twigs.

2 to 3 feet **\$1.59**

ALTHEA (Rose of Sharon)—Double rose, double white, double purple, double red.

2 to 3 feet, **\$1.25**; 3 to 4 feet, **\$1.49**

BARBERRY RED LEAF — 12 to 18 inches, **\$1.40**; 18 to 24 inches, **\$1.75**.

BEAUTY FRUIT (Callicarpa Purpurea) — A pretty shrub of low growth, blooming profusely in mid-summer followed by large clusters of violet berries, which persist until after frost.

1 to 2 feet, **72c**

CALYCANTHUS (Carolina All Spice) — A unique shrub growing upright to 6 feet, clothing its straight, strong, reddish brown shoots with large glossy leaves, from the axils of which spring odd double, spicily fragrant flowers of chocolate red.

18 to 24 inches, **98c**

CARAGANA (Siberian Pea Tree) — A large shrub with beautiful leaves of bright green color; flowers yellow in small clusters in late spring, splendid for massing; does well on most all soils and in partly shaded places.

2 to 3 feet **\$1.13**

BUTTERFLY BUSH

— Flowers resemble lilac in color and shape—appear in great profusion from mid-summer until frost. Of a delightful fragrance that is attractive to butterflies. Will invariably bloom the first year.

2-year, **98c**

CYDONIA, JAP-ONICA (Flowering Quince)

— A popular dooryard shrub, growing from 3 to 6 feet high. The scarlet flowers appear before the

leaves, giving a brilliant glow to the bush from a distance; excellent in shrub groups or as a hedge.

2 to 3 feet, **\$1.15**

DEUTZIA, Pride of Rochester

Upright, fast grower, 6 to 9 feet. Flowers in large panicles are pinkish white in late May.

2 to 3 feet, **79c**; 3 to 4 feet, **94c**

GRAPE MYRTLE

(*Lagerstroemia*)—The most gorgeous of all blooming shrubs for the Southwest. Blooms throughout the entire summer; withstands drouths wonderfully. Crape Myrtle is very effective for hedges, and is at its best when pruned every winter and not allowed to grow in tree form. We can furnish pink, red and white.

11

1-year-old Shrubs

\$1.42

DOGWOOD (Red Osier)—A spreading shrub; branches in winter are a dull purplish red color; leaves dark green above, whitened beneath; flowers are creamy white in dense flat topped clusters, followed by white berries.

2 to 3 feet, **69c**

ACUTILOBA (Cut-Leaved Elder) — Great, handsome cymes of delicate white, fragrant flowers in June and July, followed by large clusters of fruit.

1 to 2 feet, **79c**

FORSYTHIA (Golden Bell) — These splendid old shrubs growing 8 to 10 feet tall eventually light up the garden with glinting masses of yellow very early in spring before leaves appear. The upright forms make excellent tall hedges, and are bright hued fillers for massed shrub groups.

2 to 3 feet, **97c**

HIGHBUSH CRANBERRY (Viburnum opulus)—Beautiful shrub of the viburnum family, foliage the same as the Old Fashioned Snowball, blooms in early spring, flowers flat white clusters, followed by berries which turn red by fall.

1 to 2 feet, **\$1.35**

HYPERICUM (St. John's Wart)—An attractive, useful class of hardy shrub now becoming popularized for dwarf and medium location in shrub groups and foundation planting. Their dense, rounded construction of fine twigs and small, usually shiny leaves; abundance of fully distributed yellow blooms.

2 to 3 feet, **\$1.25**

JASMINE

Nudiflorum—Grows to 15 ft. and opens its satiny yellow flowers in late winter or early spring, before the leaves appear.

1 to 2 ft. **73c**; 2 to 3 ft. **98c**; 3 to 4 ft. **\$1.50**

HONEYSUCKLES

2 to 3 ft., **99c**; 3 to 4 ft., **\$1.09**

WINTER HONEYSUCKLE—The white flowers of this variety often open before the snow has gone in spring, and are deliciously fragrant. The foliage is of a very attractive shade, and remains green until hard freezing weather.

MORROWI HONEYSUCKLE—This is one of the most vigorous of the white flowered kinds, becoming from 6 to 8 feet tall. The foliage is of dark restful green and held until late in the season. In early spring the bush is like a ball of snow, because of the profusion of blooms. During mid-summer the bright red berries contrast strikingly with the foliage and give the bush great attractiveness.

TARTARIAN HONEYSUCKLE—The most extensively used of the older varieties of Bush Honeysuckles. There are a number of varieties, some having flowers of distinctly reddish hue, some pink and some white. All bloom very freely and in mid-summer carry loads of brilliantly colored berries, usually of bright red. We can supply Tartarian Honeysuckles in pink, red or white flowers.

HYDRANGEA

18 to 24 inch, **\$1.25**

ARBORESCENS GRANDIFLORA (Hills of Snow)—The flowers are, in large way, similar to the familiar "Snowball" in appearance; conspicuously white and imposing. July to September. By cutting back to the crown each spring, the bushes may be kept round and dense at a normal height of three to five feet. They are excellent for solid low borders or in foundation plantings which will allow for about four feet

PANICULATA GRANDIFLORA — Fine, tall hedges, or if planted in rich soil and severely pruned every spring before the leaf buds open will get to be very dense, dwarf clumps of compact form, wonderfully attractive when laden with their massive white plumes. Large beds kept at a uniform development, are extremely showy, first snowy white, then pink, then red-dish-bronze and green. August till autumn. Planted rather well back in the intervals between other shrubs, the projecting flowers arching from the ground are extremely effective.

PLANT BEAUTIFUL FLOWERING SHRUBS

TO MAKE YOUR HOME WORTH MORE!

MOCK ORANGE

Philadelphus avalanche. Grows to only about one-half the heights of the old fashioned "Sweet Syringa." Its slender arching branches make it probably the most graceful of the species. Flowers frequently cover the entire length of the branches and are very sweet scented. Blooms in late spring.

2 to 3 ft., 62c; 3 to 4 ft., 83c

Philadelphus, Virginal. The reliable, old sweet scented Mockorange, known and loved by all. Has double white flowers that are larger, more beautiful, very plentiful. Grows 5 to 7 ft. tall.

18 to 24 in. size, \$1.14

BLUE HYDRANGEA

BEAUTIFUL NIKKO BLUE. Blooms all summer. Has immense flower heads, often a foot across, that last many weeks. In ordinary soil the flowers are pink—in acid soil, they are blue. To make soil acid mix in half Peat Moss, or water twice a month with a tablespoon of aluminum sulphate per gallon of water. Does best in partial or full shade. Where winter temperature goes below zero give protection just like roses.

Blooming Size \$1.45 each

FRENCH LILACS (Hybrids)

Admired by everyone! Twice as beautiful as the old fashioned lilacs. Grows to 8 ft. tall, hardy, dependable and easy to grow. Blooms young. Flowers are much bigger, more richly colored, more sweetly scented. Favorites in every garden.

LUDWIG SPAETH—Best dark colored lilac. Large wine-red attractive single flowers in narrow, well-filled clusters. Very fragrant.

18 to 24 inch size for only \$2.40

PEONY SPECIAL
 3 for \$1.88
 1 Red, 1 Pink, 1 White.
 6 for \$3.33

LILACS (Syringa)

LILAC, Common Purple—It is the well known purple fragrant variety.

2 to 3 ft., \$1.13

Common White—Is also fragrant but flowers are white.

2 to 3 ft., \$1.13

Persian—A graceful shrub with finely cut foliage and delicate lavender blossoms; blooms not so large as the common purple, but it is a graceful shrub.

2 to 3 ft., \$1.30

SPIREAS—THE FAVORITE SHRUBS

SPIREA, Anthony Waterer—Dwarf, bushy, of spreading type with large corymbs brilliantly colored rosy crimson. Very free flowering, at its best in late summer. This is one of the very good showy red flowered shrubs sufficiently dwarfed to be used in foundation plantings or the low front of shrub groups.

15 to 18 inches, 83c

Billardi—Tall, erect shrub with canes terminated by feathery plumes 5 to 6 inches long, of dainty pink color.

2 to 3 ft., \$1.10

BLUE MIST—A beautiful low growing shrub with numerous clusters of powdery blue, fringed flowers from August to frost. A neat, compact, rounded bush about 2 ft. tall with silvery green foliage. Very showy and hardy.

1 year plants \$1.05 each

VAN HOUTTEI—Grandest of Spireas. One of the best shrubs; complete foundation of pure white bloom in May and June. The foliage and bush shape is ornamental the year round.

1 1/2 to 2 ft. (2-yr.), 57c; 2 to 3 ft., 79c

THUNBERGI—Forms a dense fluffy bush 3 to 5 feet high, the feathery foliage a pleasing shade of light green, changing in autumn to bright red and orange. One of the first shrubs to bloom in the spring. Shrubs covered with small white flowers.

1-2 ft., 69c; 2-3 ft., 89c

INDIAN CURRANT (S. Vulgaris)—Similar to the Snowberry except that its fruits are dull red, and that the smaller berries cluster in thick ropes along the weighted down stems.

2 to 3 ft., 49c

KERRIA JAPONICA Fl. Pl.—A very bright and cheerful dwarf to medium shrub, particularly adapted to sunny foundation plantings; it's very numerous branches are graceful, slender, shiny, arching; its leaves serrated; stems and foliage alike a brilliant green. Its abundant double flowers are like half-open rose buds, rich yellow.

1 1/2 to 2 ft., \$1.95

KOLKWITZIA, amabilis (Beauty Bush)—A recently introduced shrub which bids fair to become one of the very best. Growth upright in the center, with outer branches arching. Bell-shaped flowers, borne in pairs forming a cluster of 25 or so, pink with orange veins. Buds darker pink. Somewhat resembles the Weigelia.

2 to 3 ft., \$1.59 each

ROSE ACACIA—Drooping clusters of rose colored flowers resembling pea blossoms.

2 to 3 ft., \$1.10; 3 to 4 ft., \$1.39

SNOWBALL, Old Fashioned (Viburnum opulus sterile)—An old time favorite. Rather tall growing, foliage large and coarse showy flower in large white "balls" in April.

1 to 2 ft., \$1.49

SNOWBERRY (S. Racemosus)—Rose colored flowers in June and July; followed by large clusters, milk white fruits which remain far into winter.

2 to 3 ft., 83c; 3 to 4 ft., 93c

TAMARIX, Odessana (Caspian Tamarix)—4 to 6 feet. Exquisitely feathered foliage of silvery green, blooming in July and August with large, loose panicles of lavender-pink flowers. Dwarf growing, more bushy and spreading than the others.

2 to 3 ft., \$1.15

WEIGELIA, Rosea—Most popular of all; tall growing, vigorous, with deep pink flowers in the greatest profusion during June and more sparsely at intervals thereafter.

2 to 3 ft., \$1.19

WEIGELIA, Eva Rathke (Red Flowering)—Dark rich red flowers in May and June, with dark green attractive foliage. Semi-dwarf. Produces amazing quantities of dazzling bell shaped flowers.

12 to 18" size only \$1.05

EVERGREENS—LOW AS 20c EACH BARGAIN EVERGREEN ASSORTMENT

These Evergreens are young trees, from 3 to 5 years old. They are well rooted and well shaped and will, in a few years, make a fine specimen evergreen. We offer the following kinds that will range in height from 8 to 10 inches: Norway Pine, Black Hill Spruce, Juniperus Virginiana, Scotch Pines, Chinese Arborvitae. Our selection.

12 FOR
ONLY
\$2.00

IMPORTANT NOTICE

This evergreen assortment is not balled and burlapped and is shipped PREPAID to you. All other evergreens listed on this page are balled and burlapped and will have to be shipped to you via Express or Freight, Transportation Charges Collect. Will you please indicate on your order blank that you expect them on this basis, because when you do not specify that you want them shipped collect, your order is held in our office until we write to you for permission to ship your Evergreens in this manner.

We do not ship any Evergreens (except the \$2.00 Evergreen Assortment) to any points farther away from us than the following: Oklahoma City, Okla.; Texarkana, Tex.; Memphis, Tenn.; St. Louis, Mo.; and Kansas City, Mo.

CYPRESS, Arizona

—Brilliant silvery-blue foliage; growth rather compact, with branches somewhat stout; red bark.

2 to 3 ft., \$6.00; 3 to 4 ft., \$8.00
4 to 5 ft., \$10.00; 5 to 6 ft., \$12.00

American Pyramidal Arborvitae

This exceedingly beautiful Arborvitae is the most compact and erect of the entire species, being in form almost a counterpart of the Irish Juniper. Foliage a deep green, retaining color remarkably well through the entire season and perfectly hardy.

2 to 3 ft., \$4.50; 3 to 4 ft., \$6.00
4 to 5 ft., \$7.50

SPRUCE

BLACK HILLS SPRUCE—Considered a close relative of White Spruce, from the Black Hills of South Dakota. The foliage runs from green to a bluish tint; some as blue as a Colorado Blue Spruce. One of the hardiest of all Spruces, grows unusually symmetrical, compact and bushy, evident in even the smallest trees, which develop into round, sturdy, compact trees even when small. Tree reaches twenty-five to forty feet with a ten to twelve foot spread of branches. 1 to 2 ft., \$4.00; 2 to 3 ft., \$5.75.

COLORADO BLUE—The queen of the spruce family; the color is a beautiful blue, which holds well all through the year; this is one of the most valuable of ornamental evergreens. 1 to 2 ft., \$11.50; 2 to 3 ft., \$13.98.

COLORADO GREEN—Tall growing, compact and perfectly shaped. Thick short needles of green color. 1 to 2 ft., \$4.26; 2 to 3 ft., \$7.25.

WHITE SPRUCE—One of the very best conifers, especially for cold climates. Compact, upright growing, long lived, retaining its branches to the ground, aromatic, drought-resisting; varies in color from light green to glaucous blue. 1 to 2 ft., \$4.20; 2 to 3 ft., \$6.30.

BROAD LEAF EVERGREENS

ABELIA (*Abelia rupestris grandiflora*)—A beautiful low growing evergreen flowering shrub; leaves a glossy dark green contrasting effectively with the red tinged bark. The numerous small white tinged pink flowers resemble miniature Arbutus, having comparatively deep, slender throats though the individual flower is only about three-quarters of an inch in length. Blooms from June until frost; delicately sweet scented. Occasionally a "wild," vigorous growing shoot appears which should be pinched off when a dense shrub is desired. 18 to 24 inches, \$3.15; 2 to 3 ft., \$4.20.

BOXWOOD (*Boxus sempervirens*) — Everyone is familiar with Boxwood and its good qualities. There is hardly a plant that can be used in quite so many positions. For edging, as specimens, for urns, window boxes, it is very useful. The foliage is always a shining dark green even through the winter. It is a heavy feeder and should always be planted in soil where it can get plenty of fertility and moisture. 12 to 18 inches, \$3.15.

EVERGREEN EUONYMOUS (*Euonymus Patens*)—One of the best broad leaf evergreens for the Southwest. Luxuriant of growth and naturally symmetrical in shape, is as well adapted for a hedge as for a specimen plant or a background for a shrub group; may be kept in almost any desired shape by pruning; leaves occasionally followed by bright red berries. 18 to 24 inches, \$2.98.

MAGNOLIA GRANDIFLORA — The grandest of evergreens and flowering trees. Has large, glossy, bright green leaves. Succeeds throughout Texas and Oklahoma, as well as in other southern states. By clipping off all but a few of the tip leaves when taken up, and treated as in our handling, they are readily transplanted. 24 to 30 inches, \$4.73; 30 to 36 inches, \$5.25; 3-5 ft. \$6.50; 5-7 ft. \$7.85.

PYRACANTHA Lalandi—The most hardy Pyracantha. Upright grower, white flowers. Large orange-colored berries which are beautiful from midsummer until late winter. 2 to 3 ft., \$3.75.

MAHONIA (*Berberis aquifolia*) (**Oregon Grape**) — Dense, low spreading shrub, beautiful holly-like foliage, glossy green bluish-purple and bronze, moderate growth, 3 to 5 feet, exceedingly hardy; blossoms yellow racemes. March to May, followed by blue grape-like berries. Fine for low shrubberies, mass planting, individual specimens or groups, equally good in shade or sun. 10 to 12 inches, \$1.58; 12 to 18 inches, \$3.00; 18 to 24 inches, \$4.25.

NANDINA—Upright in habit of growth, medium height, narrow pointed foliage which is rich red when young, turning to dark green when fully matured, and which takes on bright colors during the fall. Flowers are white followed by red berries in the fall, which remain on well into the winter. 15 to 18 inches, \$2.10; 18 to 24 inches, \$2.50; 24 to 30 inches, \$3.80.

BURFORDI HOLLY—Relatively new with increasing popularity. This Holly has evergreen dark glossy foliage with profusion of big bright red berries in winter. 15 to 18 in., \$2.98; 2 to 3 ft., \$5.50.

AZALEAS—6 to 10 inches, \$1.75.

SNOW—good sized flowers of purest white among beautiful glossy leaves. Liked by all.

CHRISTMAS CHEER—Blooms are bright red and in great profusion making this one of the most popular reds offered.

CORAL BELLS—Very Showy, profuse bloomer of brilliant coral pink. Grows compact to height of three feet. Glossy foliage.

ARBORVITAE

BERCKMAN'S GOLDEN ARBORVITAE (*Tr. Orientalis Aurea Nana*) — A perfect gem for gardens, cemetery lots, formal plantings, window boxes and tubs. It is of dwarf, compact and symmetrical growth, with golden yellow foliage. 24 to 30 inches, \$5.78.

CHINESE PYRAMIDAL ARBORVITAE (*T. Orientalis Pyramidalis*)

— One of the tallest and hardest varieties; of pyramidal habit and bright green foliage. 3 to 4 ft., \$4.46; 4 to 5 ft., \$5.51; 5 to 6 ft., \$6.56.

GLOBE ARBORVITAE—A new variety that is very handsome. In shape it is absolutely round or globular, very dense in growth, and does not require shearing. It does not grow over 4 to 5 feet tall; foliage is deep dark green, its little branches being of unusual delicacy. Be sure to order one or more of these beautiful and attractive species and we will guarantee that it will please you. Our trees are well rooted, transplanted and root pruned. This is one of the most rare of the dwarf evergreens. 12 to 18 inches, \$3.15.

BAKER'S PYRAMIDAL ARBORVITAE—A beautiful dark Evergreen that will furnish a special green for your foundation planting. Can be sheared, will grow from 8 to 12 feet tall. 2 to 3 ft., \$4.73; 3 to 4 ft., \$6.30.

COMPACTA—Broad, compact grower with tapering top. Foliage bright green. One of the hardiest of the Oriental type and one of the most beautiful. 18 to 24 in., \$2.95; 2 to 3 ft., \$3.95; 4 to 5 ft., \$4.25; 5 to 6 ft., \$5.50; 6 to 7 ft., \$6.25.

THE JUNIPERS

JUNIPER, Andora — One of the finest spreading Junipers of recent introduction. Grows closer to the ground than the Pfitzer. During summer it has a silver reflex to the otherwise green foliage, in winter it turns a purplish cast, which is unusual in evergreens. 18 to 24 in., \$3.68; 2 to 3 ft., \$4.73.

JUNIPER, Irish — Erect, slender and formal in habit; column or pyramidal form, foliage sage green, very compact, perfectly hardy and a real beauty in combination with other forms and colors of evergreens. 3 to 4 ft., \$4.90; 4 to 5 ft., \$5.75.

JUNIPER, Pfitzer's (Chinese pfitzeriana)—This is the most popular of all the spreading types. Its habit of growth, its pendulous branches and attractive foliage is strikingly beautiful. The branches are horizontally spreading and the terminals slightly drooping. It lays close to the ground and for edging larger plantings there is nothing superior. Flowing lines are especially valuable in landscape planting and this Juniper seems to fill requirements better than any, both summer and winter. Because of its ability to withstand the soot and dust of the cities it will thrive where others fail. 18 to 24 in., \$3.68; 2 to 3 ft. spread, \$4.73; 3 to 4 ft. spread, \$6.30.

SILVER PFITZER JUNIPER—Same as regular Pfitzer except beautiful silvery foliage. 18 to 24 in., \$4.20; 2 to 3 ft., \$5.25.

SPINY GREEK JUNIPER—Narrow and columnar, having many erect branches and branchlets. The foliage is spiny, with sharp points and of a glaucous blue color. An extremely dense growth. 18 to 24 in., \$4.73; 2 to 3 ft., \$5.78; 3 to 4 ft., \$6.83.

VONEHRON JUNIPER—A variety of the savin juniper. A very fast grower and has a more loose and open appearance, quite different from the Savin. It has a deep rich color and bears both juvenile and adult foliage. 18 to 24 in., \$3.68; 2 to 3 ft., \$4.73; 3 to 4 ft., \$6.30.

SAVIN JUNIPER—The old familiar, low many-branched evergreen. Sometimes reaches four feet in height. Well covered with short tufted, dark green foliage and frequently displays blackish or purplish berries. 2 to 3 ft., \$4.73.

PROCUMBEN JUNIPER—A good, hardy, thrifty, rapid growing prostrate Juniper with prickly blue-green foliage. 18 to 24 in., \$5.00.

ALL AMERICAN ROSES

REX ANDERSON (Pat. 335) \$1.75 Each

An outstanding exhibition rose of delicate, lovely ivory-white; perfectly formed, slow opening, one of the few very successful whites. Its fully double flowers may be grown to enormous size by disbudding.

TALLYHO (Pat. 828) \$2.00 Each

1949 All-America Winner—Uniquely colored blooms of warm pink with the reverse of the petals crimson, exquisitely formed and delightfully fragrant.

NOCTURNE (Pat. 713) \$2.00 Each

1948 All-America Winner—Bright cardinal-red with intriguing dark shadings of chrysanthemum-crimson. Plenty of large, richly textured petals.

LILIBET (Pat. Pend.) \$2.00 Each

A wonderful Floribunda. Rose-pink to Dawn-pink, each little bud is perfect in every detail. Ideal for corsages or arrangements. The plant is bushy and compact.

1957 ALL AMERICA WINNERS

GOLDEN SHOWERS (Patent applied for) \$3.00 each

Exquisitely shaped, daffodil-yellow, long pointed buds and fragrant, high-centered 4 to 5 1/2 in. blooms. Almost thornless. May be grown as a climber, pillar or a bush. Winter-hardy. Blooms from early spring to late fall.

WHITE BOUQUET (Patent No. 1415) Price \$2.50

Floribunda rose—A lovely new white rose each with gardenia-like, 4 to 5 in. flowers of opulent white and sweet spicy fragrance.

CLIMBING PEACE (Pat. 932) \$2.25 each

Blooms identical with those on bush Peace. Rose comes on long, fast-growing, plant canes. For the north we advise you to give it winter protection.

WHITE KNIGHT (Patent No. 1359) \$3.00 ea. FUSILIER (Patent applied for) \$2.50 ea.

Magnificent pure satiny white flowers that do not fade or discolor. Very vigorous and upright bush about 3 ft. high. Disease resistant. A floribunda with flaming orange-scarlet blooms having up to 40 ruffled petals. Fragrant and free blooming. 30 to 36 inches tall.

GOLD CUP (Patent applied for) \$2.50 ea.

A floribunda. Non-fading deep yellow blooms 3 to 3 1/2 inches across. Sweet rose fragrance.

CHARLOTTE ARMSTRONG (Pat. 455) Each, \$2.25

Beautiful, lovely, long stemmed, carmine red buds and the open blooms of vivid cerise.

PEACE (Pat. 591) Each, \$2.50

The slowly opening flower displays many beautiful shades of canary-yellow, pale gold, cream, pearly-white, rose and apple blossom.

MOJAVE (Pat. 1176) Each, \$2.75

Radiant orange is the dominant color, highlighted by flame-like tones of scarlet and vermilion.

MIRANDY (Pat 632) Each, \$2.25

(All-America Rose Selections Award, 1945). A gorgeous fragrant, red rose. The big buds are deep, rich dark red with black shadings, opening to a gorgeous chrysanthemum-red. Penetrating fragrance. Strong, with heavy stout stems, and produces freely all season.

WHITEKNIGHT (Patent No. 1359) \$3.00 ea. FUSILIER (Patent applied for) \$2.50 ea.

Magnificent pure satiny white flowers that do not fade or discolor. Very vigorous and upright bush about 3 ft. high. Disease resistant. A floribunda with flaming orange-scarlet blooms having up to 40 ruffled petals. Fragrant and free blooming. 30 to 36 inches tall.

WEEDONE (Weed Killer) Recommended for killing Poison Ivy, Oak, Bindweed, Wild Morning Glory, Japanese Honey-suckle, Sassafras, Black Locust and Wild or Choke Cherry. Does not sterilize soil, irritate the skin, corrode spray equipment or explode. It is non-poisonous to livestock.

8 oz. bottle (1500 sq. ft.).....\$1.25

HAMMOND'S NO CROW

A repellent which crows, black-birds, pheasants, and larks hate, hence will not touch treated seeds. No-Crow is economical, costing about 10 cents per acre of planted ground, and is easy to use. No-Crow is the most effective of all crow repellents.

Half Pint Size 75c

GREEN THUMB GLOVES

No glove like them for style, comfort, and guaranteed ability to outwear any other garden glove of similar price.

Women's \$1.15 pair
Men's \$1.25 pair

CHLORDANE DUST

On lawns—for ants, chiggers, chinch bugs, grubs, and sod webworms. In gardens—for cutworms, earwigs, mole crickets, and sowbugs. In the soil—for wireworms, white grubs, and root maggots. Can be used to treat storage bulbs, and seeds.

1 Lb. Can \$1.20

EVERGREEN SPRAY

An all purpose evergreen spray to protect trees from bagworms and red spider.

Small size (makes 1 gal. spray) 50c;
Economy size (makes 10 gal. spray) \$3.50.

FRUITONE

Hormone spray for preventing pre-harvest drop of apples. Holds apples on the tree longer. Fruitone sprays on flowers produce better set of seed and fruit, such as tomatoes and beans. 2 oz. pkg. makes 25 gals. of spray.

Only \$1.40

TRANSPLANTONE

Transplantone is a soluble powder, harmless and easy to use. It is stable and effective in acid or alkaline soil. 1 oz. makes 10 gallons of transplanting solution or 1,000 gallons of solution for watering.

1/2 oz. pkg.....35c
3 oz. can.....\$1.40

FLORAL DUST

For the control of most insects, such as aphids, Japanese beetles, thrips, caterpillars, lacebugs, rose weevils; and diseases such as Black Spot, Powdery Mildew, Leaf Spot and Rust.

1 Lb. Can \$1.20

PLANT BY THE MOON

By Llewellyn George, Well Known Author and Lecturer
The Moon Sign Book gives complete instructions in the use of planetary influence on planting and harvesting, also business and personal affairs, etc., the result of more than thirty-five years of research. Why do farmers plant Potatoes in the dark of the moon? When should Corn, Beans, etc., be planted? Why florists plant seeds in the 2nd quarter and a certain Moon Sign? Why you should plant flowers in Libra on a certain date and Moon's phase. These and many other questions are answered and explained in a simplified yet scientific and practical manner. The Moon Sign Book has been published annually for over 37 years with sales increasing each year. A mine of useful information. Price in the U. S.....\$1.50

SPECIAL ITEMS TO SOLVE GARDEN PROBLEMS

RA-PID-GRO

The Miracle Liquid Plant Food

- For Healthier, More Luxuriant Trees. • For More Abundant Blooms and Brighter Colors. • For Disease Resistant, More Productive Gardens. • For Faster Growing, Better Yielding Plants. • For Foliage Feeding.

The amazing New Discovery. Ra-pid-gro is a miracle-working concentrated food that helps nature bring out the best in your flowers, fruits, vegetables, and ornamental trees. It contains all the elements nature intended plants to have. Vitamins B1 and B2; the hormones that control growth and the essential chemicals. Eleven Vital food elements in addition to the vitamins. Just dip plants in solution when planting. Then every 2 to 3 weeks, spray the foliage and you will get the very best results.

1 Lb. makes 22 gallons of quick-acting fertilizer. Instructions with every order.

1 Lb. Can \$1.35; 2 Lb. Can \$2.50;
5 Lb. Can \$4.75

HOW TO PLANT

A 20 page booklet given away with each order tells how to plant, prune, cultivate and spray.

Number of Trees Per Acre at Different Distances

Rule: Multiply the distance the plants are set apart, in the row, and the product will be the number of square feet for each plant, or hill, which, divided into the number of square feet in an acre (43,560), gives the number of trees or plants per acre.

Distance apart	No. of trees
10 feet by 10 feet.....	435
11 feet by 11 feet.....	360
12 feet by 12 feet.....	302

Evergreens	Bagworms and Red spider	ALL PURPOSE EVERGREEN SPRAY	Small Package		As soon as bagworms appear and as often thereafter as necessary. Spray evergreens several times during entire summer.

IMPORTANT: Add an equal amount of Hydrated Lime for every part of Arsenate of Lead used in above.
SEEDLINGS: Do not allow your trees to sprout out below the top bud or graft as the trees will be seedlings when allowed to sprout. Cut off all sprouts that come out below the top bud or graft.

HARDY PERENNIALS FOR EVERY HOME

**STRONG
STURDY
PLANTS**

Our hardy perennials will give you masses of color and fragrance from early spring until frost. For borders, rock gardens, and beds they are unexcelled. Unfortunately space does not permit us to display all varieties in color; however, we have a complete assortment in stock ready to fill your order. Complete list below. Extra heavy, field-grown plants.

EACH... **50c** 3 for. **\$1.30** 6 for. **\$2.35** 12 for. **\$4.35**

Varieties Marked * Are Ideal Rock Garden Plants

HARDY CARNATION — Our choice of pink, white, yellow and dark red.

BALLOON FLOWER (Platycodon)—Large, showy, deep blue flowers on 12-inch stems in great profusion all summer.

TRITOMA (Red Hot Poker)—These new hybrids are hardy, with beautiful flower spikes of brilliant orange-red on graceful stems. 3-4 feet tall.

DELPHINIUM (Hybrids) — A favorite wherever flowers are grown. Vary from pale blue to deepest indigo-blue and royal purple. Fine for cutting and in the garden. Grows 3-5 feet tall.

GIANT WHITE SHASTA DAISY—MARCONI—Largest of the double frilled with flowers 5 to 8 inches across. A superb plant for the perennial or rock garden. Excellent for cutting.

LYTHRUM ROSEUM mass of blooms from July to September. Spike after spike of deep rose-colored flowers. 3 to 4 feet high. Very hardy. Blooming size plants.

GIANT HIBISCUS, Mixed Colors of White, Red, Pink—Flowers as big as saucers. Giant among the perennials. 4 to 5 ft. tall. Heavy foliage. Blooms in August and September like giant Hollyhocks.

DOUBLE HOLLYHOCKS — A magnificent new strain with exquisite double flowers; hardy and easy to grow.

HARDY CHRYSANTHEMUM—Large Flowering varieties. Choice of Yellow, Pink, White, Bronze and Red.

COREOPSIS — Bright yellow daisy-like flowers in profusion all summer long—easy to grow; fine for cutting. Grows 3 feet tall.

PAINTED DAISY (Pyrethrum) — Lovely Daisy-like flowers in shades of pink and red on long stems above graceful fernlike foliage.

CARNATIONS

HARDY ASTERS

Adorable—Deep clear pink.

Beechwood Rival—Red.

Violetta—Double, deep violet-purple.

Each **65c**

***SHASTA DAISY**—2-3 inches across, petals of white and clear yellow center. Beautiful in the garden and fine for cutting. A profuse bloomer. Thrives in ordinary soil.

Varieties are Ideal Rock Garden Plants

***GAILLARDIA** — One of the showiest giant sized blooms of rich burgundy-red petals with gold tips. Easy to grow. Excellent for cutting. Grows 3 feet tall.

***SWEET VIOLETS** — Well-known flower that is always popular. Deep violet, sweetly scented. **Clumps.**

***SWEET WILLIAM**—No garden is complete without some of the beautiful, prolific bloomers. Mixed colors.

***FOXGLOVE, True Perennial Type**—This is not the ordinary Foxglove that you find in the garden but a true perennial type known as Ambigua. Lovely soft yellow blooms, flecked with chocolate. Looks like a hothouse grown plant. Blooms all summer.

***LONG-SPURRED COLUMBINE** — Among the first perennials to bloom in the spring, this lovely strain with rich colors, large flowers, is sure to please. Perfectly hardy.

***ARTEMESIA, Silver King**—Often called the Ghost Plant because its frosted, silvery-gray branches and tiny leaves. Use it for a 3-ft. background—it stays the same all summer without wilting, doesn't need staking. Sprays can be dried and used for winter bouquets.

***ACHILLEA, The Pearl**—Always dependable—hottest summer sun doesn't slow it up—shoots forth compact, cushiony, pure white flower heads July until frost. Grows 1½ to 2 ft. high—just right for showy backgrounds. Gives flowers every year.

***LINUM PERENNE (Hardy Flax)**—Feathery foliage and sky-blue flowers in profusion. Grows 2 feet tall. Fine for cutting.

***BLEEDING HEART (Fern Leaf)**—A dwarf growing new variety with finely cut foliage and pretty pink flowers throughout the season.

***CUSHION CHRYSANTHEMUMS** — Dwarf, pink-cushion type which bloom from August till frost. Very hardy, easy to grow. Blooms first year. Four different striking, vivid colors: Yellow, Bronze, Pink and Red.

PERENNIAL PHLOX

DAILY SKETCH—A magnificent Phlox. Color is lustrous, sparkling pink with deeper eye. Large trusses of very large flowers on tall strong stems.

HARVEST FIRE—A new outstanding variety, the most brilliantly colored of any Phlox. Large flowers of vivid orange-red

MARY LOUISE—Without doubt the best white Phlox with immense heads of purest white. Free bloomer.

SALMON GLOW—Immense heads of rich salmon. Very free blooming.

ROYAL PURPLE—Rich shaded violet with deeper eye.

SWEETHEART—Deep salmon-pink. A beaut.

One of the best perennials, blooming over a long period. Easy to grow, beautiful colors.

CREeping PHLOX

Early spring flowering perennial with moss-like evergreen foliage. Completely covered in early spring with masses of bloom. Pink.

POPPY—Oriental Hardy Hybrid. Orange scarlet with purplish black blotch at base of petals. 50c each.

BABY'S BREATH

Bristol Fairy

Far superior to old Baby's Breath. This new variety has large panicles of double white flowers all summer long. Lovely in the garden; fine for cutting. Grows 2-3 ft. tall.

Each **\$1.25**

OLD FASHIONED BLEEDING HEART

(Dicentra)

2 feet. An old favorite that is becoming very popular again. It thrives in partially shaded places. Graceful, heart-shaped flowers in April and May. Extra heavy plants.

Each **\$1.21** 3 for **\$3.41**

SWEET PEAS—PERENNIAL—That Bloom Year After Year

Every home should have a planting of these. Fine for trellising. Mixed colors. **24c each; \$2.40 per doz.**

This Season is the Time to Plant Your Nursery Stock

Beautiful in Flower
Beautiful in Leaf
Beautiful in Fruit

**NEW
 RED LEAF PEACH**

Something entirely new—a lovely ornamental tree for your lawn, producing an abundance of edible fruit.
 The tree is most outstanding with its red foliage which creates a pleasing contrast with the green of the lawn. The color is bright red in spring, stays red all summer, and changes to deep maroon in the fall. Deep rose blossoms cover the tree in early spring, creating a most colorful picture.
 During summer and fall the tree is loaded with a crop of small, perfectly round edible Peaches about 1½ inches in diameter, colored red all over the fruit. The flesh is white with a delicious sweet flavor. The tree grows around 8 to 10 ft. tall at maturity.
 This is an entirely new tree and our supply is limited. Please order early.

Price, 2 to 4 ft. **\$1.29** — 4 to 6 ft. **\$2.06**

Our Fruits, Nuts, Shade Trees, Evergreens, Shrubs and Berry Plants of all kinds are among the few things that your money invested will increase in value in the years to come. Often Trees that do not cost more than \$1.00 or two will produce as much as \$50.00 worth of Fruits in one year.
